~~CCC WORK~~

CAMP SEEBERT

Congressman Andrew Edmiston returned this week from a two-weeks vacation at Camp Seebert, Watoga State Park, Pocahontas County, where he had an opportunity to observe the work of the Civilian Conservation corps.

The work of the CCC has been expressed in many ways, said Congressman Edmiston, but perhaps never better than by a young man with whom I talked while in Camp Watoga. The boy said:

"The CCC has greatly changed the outlook on life I had many months ago when I entered camp. I am no longer discouraged and easily beaten. I believe that I can find a position when I leave camp, and hold it as well as the man who is working next to me. The CCC has given me self-confidence and new ambition to succeed".

There are two companies at Watoga. In the two years they have been there they have constructed twenty-seven miles of excellent road through the mountains, Congressman Edmiston said. He continued to laud the camp, saying that the young men have constructed a forty-foot dam which impounds a beautiful artificial lake. It is being stocked with fish, and it will be a haven for sportsmen when it is opened to the public next summer.

Thirty of a program of fifty attractive log cabins have been built. They will be rented by the week to the public. The camp is built on 11,000 acres of waste timber land which was purchased by the state at \$2.00 per acre, and it is one of the most attractive state parks, said Mr. Edmiston.

Fire Stations and reforestation work will continue in this part. From the beginning the CCC has judged its projects for their social and economic value, said the congressman. Improvement of forests and parks, reduction of loss from forest fires, insects, tree diseases, halting of soil wastage by erosion, development of public recreational areas, flood control, and conservation of wild life.

The boys in the camps have an opportunity to study and receive special competent instruction in stone masonry, surveying, forestry, terracing, road building, electrical work, project management, agriculture, auto repair, carpentry, cooking, mechanical drawing, radio servicing, and plane surveying. The foresight of President Roosevelt has given them a new lease on life, said Congressman Edmiston.
